

## SCHOOLS AGAINST TRAFFICKING

An Exploit No More Partnership

### Join the Network

Human trafficking doesn't discriminate; it effects all races and socioeconomic backgrounds. Schools Against Trafficking helps to educate and engage youth about the realities of sex trafficking and the tactics that abusers use so that youth can keep themselves and others around them safe. This program also educates guardians and teachers on how to recognize and respond to trafficking.

### You Can Make An Impact

#### LEARNING

It's vital that staff, students, and guardians know how to recognize the signs of trafficking. Awareness is key to preventing human trafficking from happening and providing help for those in need.

#### ENGAGING

Take action!  
Involve your school in fighting the injustice of modern-day slavery. Together, we can work to engage your student body in the fight against human trafficking.

#### SHARING

Reach outside of the school walls and share what you learn with parents and your community. Sharing knowledge is an easy way to make an impact.

### SCHOOLS IN THE NETWORK WILL...

- See what other schools are doing across the state and country to fight human trafficking
- Gain ideas on how your school can take action
- Learn about pitfalls to avoid
- Develop opportunities to collaborate with other schools, organizations, and more
- Provide a way for students and staff to make an impact in one

### STUDENTS FOR SOCIAL JUSTICE!

Every schools is different and we can tailor our support to meet your needs. Contact us today to discuss how we can help your school recognize, respond, and prevent human trafficking from happening to your students.
